EMPOWER YOUR MANAGERS WITH SIMPLE, SWIFT, & STRATEGIC ACTION PLANNING

The untapped opportunity of acting on survey results.

Action is mission critical to engagement—and HR has an enormous opportunity to make an impact. But we know what you're thinking.

Action planning is complicated, overwhelming, and time-consuming. It's challenging to get your managers to make the time to review, discuss, and act on the data.

It doesn't have to be this way! Quantum Workplace is your ally on this pivotal mission.

35% of employees say their organization doesn't effectively respond to survey results. But...

...Employees who witness action on their feedback are **12X** more likely to be engaged.

We help make action planning:

~~Complicated~~ Simple.

Because your managers have full-time jobs. They don't have time for a drawn-out, clunky action planning process.

~~Overwhelming~~ Strategic.

Because a one-size-fits-all approach doesn't work. Your managers need expert-informed, personalized recommendations.
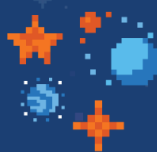

~~Time-consuming~~ Swift.

Because with the impact action has on engagement and retention—you and your managers can't afford to wait.
